DEMOCRATIC CLANS.

Bathering of the Washington Faithful at Ellensburg.

THE CANDIDATES POINTED OUT Delegates Busily Engaged in Blate Mcking-J. J.

Browne, It Is Suid, Will Be Asked to Open a Barrel in the Coming Contest.

ELLENSPURGE, W.-T., Sept. 8:—The lobby of the new Hotel Horton has been crowded with busy delegates all day, and the demoratic pot has been holling viole ity. The Spokane and Walla Walla delegation, with a number of others, came in on the midnight train Saturday night, the Taconia and Seattle delegations, arrived Sunday about Feattle delegations arrived Sunday about 5, bringing with them the Tacoma band, and other delegations dropped n from time to time with less formality. Quite a numberstayed over at Nor.b Yakima for the festivities of Friday and Saturday evenings, wherein and whereby the lively officers of that live town took occasion to impress upon a number of visitors the propriety of locating the state capital in the Yakima valley. This detachment quight a treight train which brought them into Ellensburgtan 17:30, and added a few more to the already large crowd of politicians.

Ellensburgh at 7:30, and added a few more to the already large crowd of politicians. With very few exceptions the deleg stes are all hore. A few more candidates and participate train to night, notably Charley Voorhees and J. Browne of Spokano. Voorhees isn't expected to be a candidate for anything, but is here only to cheer the fauthful by his presence and all speech or two. Browne might, in certain contingencies, be a candidate for governor. Ponticully sheaking it might not be a bad plan for him or mu for that office and open his sack liberally. Then when he was defeated, provided the legislature could be made denocratic, he would have the strongest sort of a full for what he really wants, the United States senatorship, not only by reason of his popularity and services and his liberal campaign confributions, but as a sort of consolation for his gubernatorial defeat. That plan is in the cards, but to make it work requires a deal of hopefulness regarding the legislature. Of conretthat is the most hopeful part of their plan, but from present indications they are hardly hopeful enough to inpress Browne with the navisability of opening his sack on the chances. chances.
The more likely outcome is the nomina. H

tion of ex-Governor Sample, of Talcoma. He has been generally busy among the delegates all day, and expects, and will probably receive, the nomination for governor. For representative in congress Spokane presents T. C. Griffitts, who came prominently before the public in the constitutions convention, and heartness for the hards fruit force convention.

gutes. The Pierce county delegation of ared unua-imously to present. Hugh C. Wallace, of Ta-coma, for the same place, and to support laim with all their power, but Hugh was wise in his generation and in a neat little speech in their county caucus declined the shonor. He is down for temporary chairman of the convention, with a very good chance of suc-ceeding.

But Eastern Washington has a candidate for that place in L. H. Clattor, of Colfax, who will carry pretty much all the strength Peruvia 3itters.

for that place in L. H. Clattor, of Collax, who will carry pretty much all the strength from east of the mountains.

King county has a favorite sor also for the important position, on the ground that the convention ought to be opened by a ranting, and the state of the convention of the convention of the state of the ofter shaking, eagle-screaming oration, and new say that no one can raise the roof like

convenion long to to consider the training and they say that no one can raise the roof like Judge Lewis, of Seattle. So there's another pretty three-sided race;

For supreme judges the names of B. L. Sharpstein of Walla Walla, L. B. Nash of Spokane, G. Morris Haller and f. B. Renvisof North Yakines, W. H. White of Seattle, J. B. Jones and Frank Ganahl of Spokane, and A. R. Coleman of Port Townspad, are prominently monthoned.

Lyman Etmore, of Seattle, is here, and active as usual. He must the midnight arrivals Saturday night, and attended liberally and hospitably to the wants of their inner man. He says he don't want anything for bimself, but is only working for the good of the party, and looking out for a few good real estate investments for Lyman Elmore in Ellonsburgh. But he could not have been looking over much real estate to-day, for the proverbial devil in the gale of wind never was busier than he among the politicians all day.

day.

It Tom Griffitis is nominated the campaign committees ought to send him west of the mountains and then Tom Burke could go east of the mountains and so by exchanging the two Toms and sending each where he is the least known and best appreciated, the campaign would be greatly strengthened no doubt.

he is the least known and best appreciated, the dampaign would be greatly atrengthened no doubt.

The Tacoma band, under Professor Barrenstein, played for an hour it the Horton sholty this evening, to a delighted crowd.

The Horton opened its doors for the convention and served its first meal at 6 o'clock this evening. It was a very informal house warming, for the house is not nearly yeady for guests, and nothing short of the absolute necessity of accommodating the members of the convention would have caused them to open their doors for another fortnight, at least. It is to be a fine house and a credit to the place, and has been almost wholly built and completed since July 1.

Frank J. Parker, of the Walla Walla Statesman, was urged by many friends tolected the position of secretary of state, but he says he wants a quiet life, and does not care to accept it and be abused by the Walla Walla Walla Walla. Mion. Either Whittlesey of Port Townsond or J. Miller Marphy of Olympia will be he candidate. The latter has been named for suddior, but he is afraiched accept the secretaryship.

Frank J. Parker was also urged to run for lieutenant governor, and the race was all made up between him and Laughton, the

Frank J. Parker was also urged to run for fleutenant governor, and the race; was all made up between him and Laughton, the republican nominee. Parker has been known at times to agitate the strings of a banjo in his lucid intervals, while Laughton is known as probably the hist and most classical violatist in the territory, and possibly on the coast. So they had agreed to stuting the riming districts together, Parker to do the burning districts together, Parker to do the burning districts and sing some of his charming sentimental ballads, and Laughton to saw off great lumps of Chopin, Mezirt and those chaps, and the Back Diamonds and Okanogaus were to be allowed to decide between them.

them.

For superintendent of public instruction,
J. H. Morgan, of Ellensburgh, a mentioned

THE LONDON DOCK STRIKE.

It is Shill Continued and the Demand for increased Wages Reiterated.

Loxpeys, Sept. 8.—The lord mayor of London, Bishop Temple and Cardinal Manning have written a point letter in which they recount the negotiations conducted by them with the dock companies with a view to the set lement of the strike. They express surprise at the strikers' reputation of the terms greed to by the dock companies and declare their opinion that if the men continue the strike they will farfeit the sympathy hitherto accorded them.

The strikers heid another large meeting in tyde park to-day. The proceedings were oracity! Burns, in a speech, declared it was a mistake to suppose he had agreed to the proposal of the arbitrators. He invited the strivers to declare whother or not they would accept the proposal.

A loud shout of "No!!" went up from the cruwd.

It is probable a con promise will soon be arranged on a basis of increased wages, be-ginning with November.

The ford mayor told Tillett be and Burns ought to have resigned, when the men de-cli led to accept the compromise. There ex-plained the compromise was rejected be-cause it would have created a difficulty with the wharfagers, who had already conceded six name.

EDIBON IN FRANCE.

EDISON IN FRANCE.

Er Joins With Depay in Denouncing the America Exhibit.

Pages, Sept. 8.—Thomas A. Edison, speaking of the American rathit at the international exposition, said: "I can't say it is at all a creditable show. What there is is good, but their there is just nothing. It represents nothing is just nothing. It represents nothing, it represents mothing is much as a cab herse. It is a one horse concern. I am quite of Channecy M. Depews oninion on the subject. Depay shid: "An American drapes simsolf in the American flog as he enters the exhibition, Alter he has visited the American section he takes of the lag, lo ds it up and puts i into his pocket,"

Speaking of the bunchinery department, Edison said: "There are clever little dodges, especially in milling screw machines, and muny improvements in insters of detail, but nothing new in the way of inventions. They don't have inventors, in the American sense of the word, in Paris at all. They haven't any professional inventors here, as we have on the other side—men who will go into a factory, sit down and solve any problem that may be put before them. In America we have hundred; of such man."

GLADSTONE'S GOOD-WILL America's Empid and Splendid Growth Recognized by the Grand Old Man.

America's Rapid and Splendid Growth Recognized by the Grand Old Man.

Panis, Sept. 8.—Gladstone said to-day to a reporter: "I have come over to Paris for a special purpose. I are too old to travel merely for the sake of the pleasure travel atlords. I have come in order to show good-will and respect to Prance." It his speech at a banquet yesterday Gladsone, referring to the rapid increase of the pipulation of America, said: "I wish to recognize America's right to be considered, prospectively at least, and even now to some extent, the great organ of the powerful lingish tongue. I wish also to including in feelings of satisfaction on reflecting that no cause on earth, unless our own folly, now or hereafter, ought to divide us from one another of revive those causes of honorable or less historable contention that have heretofore prevailed; among us." On Mr. Gladstone's invitation Mr. Tuck, one of the America, commissioners to the On Mr. Glaustone's criminal and one of the American commissioners to the exhibition, replied in a clever speech. French newspapers express themselves delighted with Gladstone's speech.

PRIESTS IN FRENCH ELECTIONS. The Bishop of Marsellies Affirms That They Have a Right to Itervone.

They Have a Right to Iterrone.

Paus, Sept. 8.—The bishop of Marsellles has issued a formul protest against the circular recently issue, by the minister of justice in which he reminded the clergy that they are prohibited by law from taking part in elections. The bishop affirms the right of priests to intervene in elections and other political affairs.

CABLE NOTES.

The Land Troubles in Ireland.

Dunits, Sept. 8.—A bomb was exploded on Smith Barry's extat to day, demolishing the office and destroying all private paners and important documents. Four of Barry's tenants, who had been hoycotted for paying rent contrary to the compact, to-day expressed contrition at a public meeting, and offered large compensation, but the meeting refused to remove the boycott.

The Cartridge Factory Fire.
ANTWERP, Sept. 8.—The fire, which started
a cartridge factory Friday, at last has in a carringe laterory rinday in that has been extinguished; saveral more corpses have been found and the number of dead will certainly reach 200. The arrest of M. Corvillan, proprietor of the cartridge factory, has been ordered.

The Pope Secure at Rome.

Lonnon, Sept. 8.—A dispatch to the Chronicle from Rome says: The pope has abandoned the idea of leaving Rome, the German government having inediated in his behalf and assured him in the event of wer Italy would strictly respect his position.

Death of Count William Pourtales.

BERLIN, Sept. 8.—Count William Pourtales died to-day.

Drowned in Lake Winnipeg.

Winnipeg. Sept. 8.—The Free Frees' West Selkirk special says: During a storm on Lake Winnipeg Sunday night last a boat conteining a number of mill hands and the Rev. Mr. McHaffle was swamped, and it is supposed all were drowned. Two bodies have been washed ashore.

Imprisonment for Life.
BUNINGRAM, Ale. Sept. 8.—A jury in the case of Fanny Bryant, the quadroon accused of complicity with Hawes in the murder of Mrs. Hawes and little frome last December, to-day returned a verditof guilty, fixing the punishment at imprisonment for life.

- Postoffices Established. Washington, S-ph. 8.—New postoffices bave been established at Sycambre, Multnomah county, Or., with Glary Kesterson spostmistress; at Perfer, Cheballa county, W. f., with Charles F. Boyer, as postmaster. Drunken Mon Killed by a Train.

KANSAS CITT, Sept. E.—Frank Cowen, of Gilliam, and Frank Blewett, of Marshall, Mo., were drunk inst night and fell asleep on the Alton track at Marshall, Mo. The train ran over and killed them both.

Two Hundred and Fifty Years Old.

New Haven, Conn. Sept. 8.—Exercises commemorative of the two hundred and fitteth antiversur; of the settlemant of the towns of Guilford and Madison; which continues three days, began to day. A Duel With Knives.

Moserty, Mo., Sept. 8.—Two ex-convicts,
Bud McGinsey and John Zimmer, had a
fight with knives last night and both rereved wounds in the acdomen from which
it is expected both will dir.

The Nurse Can Walk Around.

Atlantic Cirr, N. J., Sept. 8.—This afternoon nurse Donnelly, who was stabled by Mrs. Kolvert Ray Hamilton, was able to get up and walk about.

Not a particle of quining nor any mineral substance is contained in Ayer's Agus Cure—yet it is a warranted accorder for malaria.

Through Puliman vestibuled sleepers and

A MYSTERY AT TACOMA

Attempted Suicide of a Young Drug Clerk.

A BAWD DEAD IN BED IN HIS ROOM

Testimony of an Alleged Bye Witness That He Saw a Murder Committed-He Is Not Pelieved

TACOMA, Sept. 8.-About 8 o'clock this morning Mr. Stewart, of the Stewart of Holmes Brug Company, on coming to the Holmes Irrig Company, on coming to the store found his shipping clerk, F. Eugene Clark, looking very strange, and at open accused him of being intoxicated. Graft depied the charge but handed over his had on Mr. Stewart's demand. He had harder done this before he fell over backwards in

ried upstairs into the office of Dr. 1. F. Smith, where it was found be was suffering from poison. A search of the store reveated the fact that a bottle of atropia Inad Seen emptied a few minutes previously. The proper antidotes were administered and this evening Clark is doing well.

As soon as Clark had been taken into the doctor's office Mr. Stewart crossed the half into the from occupied by Clark, where a shocking sight met his view. A woman about 39 years of age was lying dead on the hed with her mouth open and the back part of her head shot off.

The deputy coroner, Dr. Hamilton, was notified and onened an inquest at which aviationed was given to show that the westan, who was a notorious street walker named

The yardman, whose name is Thomas R Weems, stated that after Clark come to the room he ordered him out stating and the company of the company

went home and on reaching litterown him. Weems left card went home and on reaching litterown began to think he had been himsed, and returned the room. Some one opened the door and again presented the pistol, when Weems said, "Oh, you wouldn't shoot anyone," and the woman made some remark, when the man turned round and said, "Wouldn't frat the same putung the pistol to the cheek of the woman and firing.

Weems, when giving this testimony, was very drank and was finally, locked up till to-morrow to sober up.

His evidence is not believed, as the dector thinks the woman must have committed suicide, from the fact that the revolver have and of her mouth, as there are no powder burns on the face or the front of the mouth, and he failed to identify Clarke.

Alfred L. Curtis, another yardman, testing the same and the simular stark.

nums on the race of the Front of the moulti, and he failed to identify Clarke.

Alfred L. Curtis, another yardman, testified that Weems find made a simular state-ment to him early in the morning.

The inquest was adjourned till to-morrow.

Clarke was last from St. Pool, where he was employed by the Ryan Drug Company and prior to that was employed in Portland by Wisdom & Co., Hodge, Davis & Co., and George H. Holbrook & Co., and nad also been with Briggs & Co., of Salem, Or. He was considered a very good clerk, and except when intoxicated, which happened once or twice a year, he was very steady and reliable. Dr. Smith says he will not be able to make any statement until to-morrow, when he can be examined.

CRUSHED BY THE CARS.

in Ignorant Man Finding Himself on the Wrong Train Jumps Off. Tacona, W. T., Sept. 8.—As the castbound verland train was passing over the draw-Tacona, W. T., Sept. 8.—As the casthoning over that draw-bridge in front of the city this morning, an unknown man, supposed to be a Norwestian, jumped from the train and fell under the cars. The right chesk and car were cut off and the skull on the same side very budy crushed. His right arm was cut off at the shoulder and his right leg was broken above the knee. It is supposed he was instantly killed. He had \$46 in his pockets and whandsome which and obtain. An inquest was opened to-day and adjourned till Therday, when it appeared he got on the train under the idea it was going to Seattle such discovering his mistake, attempted to get off whils passing over the treate.

FALL OF AN AWNING.

A Respected Citizen of Independence SALEM, Sept. 8.—This afternion an old wooden awaing in front of Fishern's Shoemaker's pump and patent lence watchouse, on Commercial street, fell officently in the first part of the first policy of the firs

A SERIOUS ACCIDENT.

very serious.

Mondovi Times.

John Tubbs, a farmer residing about three miles from Mondovi, met with a fearful accident which may ond his life. He was fifcident which may ond his life. He was filting a lamp from a five-gallon coal oil can which contained about three gallons of oil. Carelessly, he did not put out the lamp before filling and the oil caught fire, the can exploded, and had it not been for the presence of mind of his wife he would have persished. She threw a dress suc had just washed around him and smothered out the flames, but not until nearly all his clothing had burned off. In less than two minutes the house was a mass of flames, and they lost everything they had, barely exaping with their lives. Mr. Tubbs was carried to Dan Donabue's house and made as comfortable as possible until Drs. Whitney and Ayres from this place could get there. Both legs, right arm, right side of body and left hand and wrist were fearfully burned, the flash being cooked in many places. One heel fell off while the doctors were dressing him, and the flagers are burned to the bons. him, and the fingers are burned to the be The doctors are doubtful of his recovery.

At a Low Ebb.

New York Weekly.

City man (on a summer jaunt): "Are you going to have an agricultural exhibition here this year?" Farmer (sadly): "No-o, I'm 'fraid not. Most of the old ladies what makes quilts is died off, and there an't a decent race-hoss in the county."

A SCALPRL'S TICKET.

San Francisco, Sept. 8—Superior Judge Shantar has filtened the decision of the low er cour in the case of the people v. Adolph Ottinger a well known helet broker of this city. In June last Ottinger sold to L. Lain bert, ar auctiones a second class railroad ticket from San Francisco to Poptland Or, receiving therefor \$10 the regular fare being \$15 \text{ T in stacke wis a conductor s check is sued to the original holder in here of a coupon taket from Colorado Springs to Portland, and the unused portion to Portland still rulained good for passage. Lambert sice plad the telest romothinger with a guntance plad the telest could not secure passage with it he money would be refunded Lambert started for Portland and got as far as Sacr amento where he was refused passage on the ticket Lambert returned to this city. Offinger offered him his \$10 back again, but he would not take it saying that he could make more by turning the matter over to the police. Then he brought suit on the ground that the ticket broker had obtained his money under false pretenses.

Judge Lawler found Offinger guilty and fined him \$100, shiph decision has been affirmed by Indge Shafter In his decision Judge Shafter in his decision Judge Shafter in his decision linds shafter yilly. The testimony shows very at atsactorily hat defendant offered to refund the money and that the other party, with or without the words attributed to him, declined to require the money was relied upon by the party who bought, the ticket. I do not see any evidence of that fact." It Was Not Good to Kide to Portland and the Broker Suffers

A Girl of Seventeen is Net Yermitted to Lommit Suicide.

New York; Sept 8 — Leng Hertzog, aged 17 was a passenger on the ferry bont to Brooklyn on Friddy 12 10 o clock trip at might flue boat had just cleared the slip when she walked rapidly out of the cabin and jumped overboard. The bont was stepped and life pre erverladders and zones were called at to tequisition. The first life preserver thrown fell close to the girl, but she pushed it away with an angry gesture James Kelly jumped into the river seized that girl by the waist and lifted her bodily up so that she might breathe. The girl turned upon him and struygled to free herself from his grasp. helly hid on how ever and made for the slip. A desperate struggle followed The half d owned girl fought like a tigress. When near the slip ropes were thrown. Kelly caught one and wound it around the body of his charge but it was quickly thrown off. This the girl repeated three times and then serving her rescue by the arm savagely bit him. Kelly was becoming exhausted and saw that if the girl's life was to be saved violence would have to be used so he was compelled to bent her into submission. The blows had the desired effect and sho was finally landed, wet, limp and exhausted.

Her parents say that the whole adventure arose from a love affair.

BONS OF VETERANS,

The Eighth Annual Fracampuncint Heets at Puterson, N. J.

Paterson N. J. Espt 8—The eighth an nual encampment of the Sons of Veterans will begin here to morrow There will be a large attendance George B. Abbott, commander in chief, and sainf, together with Illinois Missouri Minnesota Michigan, Nebraska Colorado and Wyoming delegates will arrive to morrow afternoon. In the evening there will be a camp fire and on the following day the formal opening of the encampment will take place. On Tuesday afternoon there will be a grand parade in which the military will take part as escorts to the sons of Veterans.

The meeting this year will be of unusual importance on account of the dindersament by the recent G. A. R. encampment of the camp system. There are two branches of the Sons of Veterans designated as the camp's and 'post' systems. Both organizations have been exerting themselves for years to get the endorsement of the Grand years to get the endorsement of the Grand

camp and post systems Both organications have been exerting themselves for years to get the endorsement of the Grand Army Last winter a cort of consolidation of the two systems was patched up, each agreeing to make concessions. Since then the post system has withdrawn from the agreement and as a result the national emcampment O A E held at Milwankee endorsed the Sons of Veterans, otherwise known as the camp system.

The Estate of a Wealthy Citizen of New Haven, Conn., Divided Up.

New Haven, Cont., Divided Up.

New Haven, Cept 8 — Mrs Ellen M Gif ford last surviving heir of the late Plainp Marett who died at her home in this city yesterday, left an estate valued at over \$600 000 which was held by her in trust. The estate new reverts to local institutions as follows. To the Connecticut hosp tal income to be used in supporting iree heds. \$120 000 to the city of New Haven \$120 000, income to be used for indigent aged and infirm persons not paupers to Yale college. \$120 000 income to be used for scholarships in the academical department to the New Haven orphan asylum. \$00 000 to the New Haven to have the support of the institution for ideas and imbeciles.

REBELLIOUS ENIGHTS TEMPLAR.

The Grand Commandery of the State of Iowa Declared Disloyal.

Washington, Sept. 8.—The controversy between Grand Commander Rooms and the grand commandery of the state of Iowa over the adoption of a new ritual, is one of the most important questions that will come before the upprouching triennial conclave for action. The lowa commandery declined to follow triand Commander Roome's order for the adoption of a new ritual on the ground that it was beyond his power to insteen the contract of the

mander dec and the lower method to be in a state of deforably and rebelion and in terdicted all temporary intercourse with them by kinght of other states. The loss that it is made and the conclust example in the grand record writing all at from 100 to 50 was do byte entrouble that tate. This community the kindwide, of trand Community Roome he is not field the food communities of arrangements for the paralle to allow no form communities for the paralle to allow no form communities of the communities and no place will be obeyed by the communities and no place will be ound its the lower kinghts.

Wilmington, Del, Sepi S.—Last night a race war broke out in the lower part of Newcastie locally known as 'Dobbinsynile,' between gangs of Irishmen, Poles and Siavonians employed in the Tasker Iron Works, in the course of which a Hungarian named Francis Jankovsky was shot and killed by some of the Irish rioters, and an Irishman named Owen Kavanaugh was stabbed in ten or cleven places by an unknown Hungarian The riot was the outcome of race feeling. Thirty-three of the Sclavs have been arrested and warrants will be issued for the Irish participants Evidence thus far indicates that Jankovsky was trying to keep from some informated Irish, when one fired a shotgun, the load passing through Jankovsky's heart. Five Irishmen, two Hungarians and a Hungarian woman also received wounds from gunshot and missiles in the melee Subscriptions to being received for shares in the fifteenth series of stock, Aberdeen Cheir 21: Aberdeen Chei year.

A Negro Havisher Lynched.

St Louis, Sept. 8—A mob of armed whitemen surrounded the jail at Columbia, Mo., Jesterday, overpowered the sheriff and took from his cell George Bush, a negro 17 years old, charged with outraging a little white girl 5 years old, and hanged bim from one of the windows of the courth hise. games at Boston is growing and there, seems to be a necessity for the Boston officials to move against it. With the present pitching force the Bostons cannot hope for the championshin. It will be out of the question. New York and Philadelphia are well prepared for a hot battle. Boston is not —Bosto i Herald. The hat of League players who have made 100 safe hits this season was increased on Widnesday by the nudition of Richardson and State of the New Yorks, 1103 of the Washingtons, and Michier, of the Clevelands.

The chances are that Chicago has made a mijetake in Pitcher Bishop. Pittsburg London and two or three other clubs have tried him without success. He has been an in and outer, likely to pitch one great game be timen with hid one.

The Albietics do not like their recent lumble, and out of a spasmi has come the richard of Pitcher Multimore a league fail mire picked up two years ago there engage ment of John Colemna, another league fail in each the giving of Pitcher Sawaid a vacation without salary.

Manager Chapman is to bring eight new men to the Loulyville club and four of them hive already been signed. The first of these is I lannagan, the old first buseman of the Arbietics who has lately been liquid on Caipmans recommendation and will join the club it Columbus. A brother of Boston is freal pitcher Ciarkson is the latest on indeed up.

the club of Cocumbins A brother of Boston's grad pitcher Clarkson is the latest of c picked up.

As the Lastern season is menting its close several managers are seriously thinking of bringing clubs to California during the winter. Dive I out it is said in prepiring to come here with the Brooklynt while Harthan Fromised to bringing the Bostor's to the central they win the largue championship at the Bostor's to the central they win the largue championship at the Bostor's to the central they win the largue championship at the Bostor's to the central they wind the Recompined by the land r of the International 4 secution Von der 3h pre-ident of the St. Louis mine, received whether the second at the land of the St. Louis mine, received whether the other day said. The drouble with these trais is that they interfere with our regular games. If they come after our season is ended then we might he able to make some arrangement but as long as the California league games are boing played we will not relinqued our High street grounds. We made a misticke last winter but we will not represt it thray car. They can play for four or five months after howinder 24 without much in terference from had weather. Nothing definite has been settled upon yet but the East ern club will have to be less greedy in their demands than they have been in the past if they wish to do business with us. They imagine we should feel honored by their coming and want to take in everything in sight while we bear the expenses "—San Francisco Call.

R. C. A. MACRUM.

Covernor Pennoyer in his address last Governor Prinnoyer in his address last week before the mass meeting of 1 ejerated Trides declared that the paine of \$5.3 and the farmicial revuision of 1833 were due to the fact that Wall street dominates the Federal treasury. If at stock jobie a control the national finance. Periods of business depression he declares are alphe caused by a contraction or withdrawal from circulation of the current of the country. tion of the currency of the course. As a matter of fact Well street has never dominated the national treasury. On the contrary, the government has more than once

interfered to reneve the public from the so called domination of Wall street. It inter-fered in 1800 and more than once since on the representation of connent merchants that the business public was suffering from the machinations of Wall street and there bever was a panic of financial revulsion in this country that was not due to year and widespread overtracing in business or the widespread overtrating in business of tigonic student shock of a foreign war or unex implied domestic cylinity. The panic of 1837 was due to overtrading and speculation in lands that of 1872 was due to the liquidation of paper debis precipitated somewhat tion of paper debis precipitifed somewhat by the great fires of Chicago and Boston, but bound to come at no distant day Extravagany ratiforal subding has been a fruitful on the Europe has suffered as fruitfully from such panns as has the United Stater Europe suffered even more in the years following the great Napoteonic wars when he day of long doferred liquidation of paper debts arrived than we ever did Out pangs of 1887 and 1807 ante-dated the present system of national firance to which Governor Pennoyer charges our pance that Governor Pennoyer charges our panies that have followed its a tablishment—Governor Pennoyer proposes the following remedy

Instead of giving to a fatored class of inabound bushers the pavilege of assuing a just of the low gramment curicum; upposs that the government should flow justow all of the currousy and instead of basing it upon the simply of joid and silver and flow cynnenees of its indicatedness which alone are table, by the applaints of the country let us further suppose that it is based to a certain extention of the will be the country and that privition should be under by which any of izen banker or the banker who possesses mencum bered real estate could by mortigang and provers to the government secure half of the appraised walter in additional currency and that the further instead of giving to a favored c ass of national provis on should be made that said currency should be convertible into bonds, bearing interest at the lowest post ble rate, not exceeding per This so called remedy 19 nothing but the

old Ohio greenback idea advocated by Thurman years ago and is as dead as Cal hounism in every mind save those where both hereaus still flourish in the perennial verdure of a Northern pine. It the govern ment issued all the currency then the cur rency would be just what it once was the mere footiall or every congress and we should return to the avil days when every session of congress saw a business distract ing battle between contraction and thing ble inflation: Savings banks have time and again loaned real estate owners half the appraised value of their tands and yet suffered a loss, and no government outside of bed lam would authorize such a wildest our rency as the governor proposes. The cur rency now provided by the national banks is far better in every respect, not only in the strength of the security upon which it rests, but in the ea e with which its volume can be adjusted to the fluctuating necessities of the people On the salgect of the silver coinge Governor Pennoyer is equally absyra and physicie in his utterances. We quote

physicate in his atterances. We quote
Providence has favored us us it has favored no
other people by storing "thin the bosom of our
mout tants and in the bowels of the earth any
stores of gold and silver for our use and yet our
government, at the book of capitalists for a time
refused to ex namy silver dollars whatever and
still reduces to ego them but in very I mited
quantities, when at the same time a larger voltime of currency is impratively demanded by
our increasing population, and by the swelling
demands of rade and commerce
To-day sliver is coined so much in excess

To-day sliver is comed so much in excess of our needs that every government vanit, old and nev is fit ed to bursting with dol-lars We suppose Covernor Pennoyer would have "free silver," or ultimitable comage The ratio o silver ic gold in this country is an 16 to 1 that is it takes sixteen times as many grains of silver to make a dother as it takes grains of gold. In Europe it takes only 15½ times as much silver as it takes gold to equal the letter in con value. The price of silver in London is 42½ pence, or 8½ cents per conce of 480 grains. If the mints of the United States coined silver free of charge into dollars of the usual legal tender stri dard, 412); grains speculators could buy 569 grains of sliver for \$1 and have it coined into \$1.35 or 56,900 grains of silver for \$100 and have it coined into \$137 94 Silver comage is not free at the numis of any other nation of importance in the world and the effect of free college of silver by the United States would be to attract silver here from other countries and cause gold exports from the country Ultimately our silver currency would drop to its bullion value and we would have an era of unkealthy spec ulation and panic Our governor has a passion for picking up all the old gone to-seed cucumbers that have been thrown away in every part of the world during ages past and professing to find them full of sun

WHY NOT?

The letter of Sullivan the prize fighter an nouncing the intention to run for congress on the democratic neket from Boston is an arresistably comic answer to Sullivan s ow irresisted common answer to Sullyan's own comunication when he recently remarked "Fitn' is my busices if I can't life what shall I do for a livin?" After due reflection Sullivan has determined that outside of the prize ring the only thing he is fit for is to be a democritic corgressman from Boston Sullivan thinks ' ithis' is an honorable bunness and does good ' but the recent death of his mother and his father's pecuni ary independence leave the conqueror of Kilrain entirely free to devote the remainder of his life to the service of the democratic party in the halls of congress There is a deal of unconscious humor in

There is a deal of unconscious humor in Ealistan's etter. He coalesses that in or der to fit humself for the place of a congress man he will be obliged to abandon his present calling, which is "bonorable and does good, for that of a nolitician, who is not always he norable and does not invariably do good builtvan a belief that "a man who can quiet a crowd in Madison Square garden. can make his voice heard and presence felt in congress or any where else on earth," is spetcher flash of unconscious hamor that will make she who's country ripple with laughter. And yet John's confidence is not extravagant from his point of view. Sulli-wan doubtless expects the democratic side of congress to listen to him attentively, because they love him for the sake of the noble am bition which led him from the top of fame s

hitien with hied him from the top of fame a ladder to seep to the sly of democratic poit ities, and the republicans will listen attentions, and the republicans will listen attention to the state of John's bloops if they langhed at his brains.

But wha a bear pit congress would become if the sarrastic Reed of Maine, should venture to aprinkle the stalwart Sullivan with the Lot sand of his singing speech!

Sullivan has a very thick head but with the hot sand of his singing spectra. Suiliyan i he a very thick head, but he would know when he was laughed at and the probabilities are that he would proceed to throw the reckless Mr. Reed out of the chamber and declars his seat vacant. What a nite that Suilivan was not born early

him a useful working member of his parts Brooksthen could have best summer by proxy and Sullivan could have been the hired bull do, to bite every recoless rejublican whose free enecth galled the trascible exponents of plantition manners. We are affend Sullivan was born too late to be really useful to his party in congress, and set there would be a fitness in sending him to congress from a democratic district for if it were not from a democratic district for if it were not for the solid vote of John sconstituenes who do all their thinking p have of ethelois there would bridly be to diver a democrat cleaked to congress from the North fluore is something sweet and lovely in John schools of Boston as his first point and stamping ground. It is a rango ammous resolve for of late Boston has "sourced on bulliving around whose mosts forms she

bullivan around whose mighty trunk she bullivan arous d whose mights trunk she once buckled a best of benten brays and give him her blessing when he went across the water to tale lengish acutes and lost his own Loston through her bigoted police now denses sativan whit New York has granted him a public benefit and yet sall win forgives Bo ton sweet city of his out and untranging. We own me native land proposes to represent two years from date the silver tonted democrate chain eite sof the silver topyed democratic bean eate s of Boston in congress

The only democratic districts of Beston are the Third represented by the degenerate

son of John A Andrew and the Lourin represented by Joseph H O Neil Louid valley and be elected? Probably be could, in he kept sober the lourin Boston detrict his a democratic majority of over 8000 and Sullivan is quite as popular with the viters of that distinct so the New Years. of that district as ever Morrisse, was when he beat his own party candidate John Pox for congress from New York city more than twint years up. In Boston or New York Sullivan if coherennigh to attend to his canvass could be elected and his ele tion would to be a whit more diagraceful to the country than that of many democrats who occups stolen seats in congress to day John is a great, huiking stupid brine but be is not a murderer nor a thick He will he is not a nurderer nor a thirt. He will not shoot political opponent to in Boston nor drive any into the woods nor drop friudu-lent but or nor count his opponents out in order to get to congress, as the democratic delegations from Mississippi Louisiana Mahama and South Circhini to In fact John on the whole will make a a very re nectable democratic member of congress. He is not a more of feature he

congress. He is not a man of feeling he doesn't know any thing in particular except titin but mee he fous object to quit this prisent observes to be a democratic congres man is the next logical step in pur suit of those things that to him make life worth living John's choice to be a con-gressiant since he can no longer be a prize lighter as promised detailed by that love of langual comfort and indo cut ease that prompted a democratic brother once to prompted a control of a very hot day and exclaim. It d like a rice is not fel like to be a bishop. John would like to be a democratic congression.

AGIICLITURAL FAILS

The season of agricultural fairs is here Though it is seldom we have a fair which is all that could be desired, nevertheless the fact that these meetings and exhibit are continued year after year would seem to be a sufficient answer to the assumption, which is not an o common one that they are worthless and that the people take no inter

The agreultural tair is or may be an edu cator, and it may strainfact the zeal of the furnier at the fair does not bring together the best productions of the region it represents it ought to do so and it is the fault of the producers themselves if it does not have one who takes part may learn what his neighbors are doing—what reval sure gained and what methols of cultivation re-ceive the sanction of highest success. The man who cannot pick up many new and useful suggestions at such a Firce crimot be a person of alert or active mind. All progress among men is the result of the active on ergs of hind working upon mind. In I results that are apparent in every other i ne of human endeavor cannot fail in agricultural pursuits As a rule isolation is stagnation and it must be so among farmers as among

all others
The social feature of the agricultural fair is one of its chief attractions and benefits The fair is one of the events that break up the isolation and exclusiveness of rural life and extend the range of social opportuniand extend the range of some opportunities. Assuch the agricultural far has always been prized in our state. This is especially a feature of the state fair. Multi-tudes most there who have no opportunity of meeting elsewhere throughout the year. by large numbers both from town and

With the development of larger markets for the products of the furn weshall w tness a more general interest in agriculture, coupled with an increasing desire to get bet ter results because the better the results the better the profits, and with this growth we shall witness also an increasing interest in agricultural fors based on recognition of the fact that these fors are or may be in struments and agencies of agricultural pro-

The value of instantineous photography was traplically illustrated at a corone 's in quest recently A rulroad accident had oc-curred in which several lives were lost. The responsibility of the engineer hinged upon the inquiry whether or not he had ned efforts to sincken special before the collision Several witnesses swore that a photograph taken immediately after the accident re-vealed the fact that the letter was 7 of reversed and the po mon of the red ru ming from the lever to the shaft showed conciu sively that steam was applied to move the engine forward when the crash came. The art of photography is growing in value. It is u ed by physicians, and long has assisted the authorities in the detection of crime

Lity workingmen representing the most important branches of American industry are now in London, where they will exam me the social and industrial conditions of me the social and industrial conditions of the laboring classes. France Belgium and Germany will be visited in turn and the condition of the workingmen there compared with that of our own country. This is a commendable undertaking. It shows that the laboring classes are beginning to appreciate the value of intelligent action. There is no fear but these representatives of American labor will seture because. American labor will return home more satisfied than ever with the industrial anditions of the United States The official report of these gentlemen will no doubt afford instructive reading

The new cruiser 'Philodelphis' was launched from the Cramps' shippard saturday morning Miss Wanamaker, datghter of the postmaster general broke the champagne bottle and announced the name of the yassel as she slid from the ways and took vanset as she slid from the ways and took her p'ace upon the waters. The postmaster general to have been consistent with his prohibition principles, should have mented that his daughter he permitted to use water instead of champagne at the chris ening over which she presided. So favorable an opportunity to dely custom and proclaim individual opinion may not occur again during Mr. Wannmaker's official career.

The school year about to open in Multinomah county gives unusual promise of usefulness. Outside districts are much better equipped than ever before in the way of suitable buildings, and the schools will, in the main, be in the hands of energetic, experienced teachers who are anxious to do credit to their profession. Indications are that the attendance upon the city schools.

u it on larger than ever before at the open ing of he year this Superintendent Sabin has brought energy exterence and undig mag industry to the task of directing the chools and under her management organ

around the town upon I sudden without any unitsual diligence or search for the best specimens. A till surpassed in variety ind quality any exhibit that could possibly be collected alsewhere than on the Preshe slope The Willia Walla region is a natural fruit

I new play has just been produced in Puris modeled upon the life of Jick the lipper? It is full or the most disgusting details and shocking realisms and its production would surely be permitted now here save in France. The northest sentiment this of the graph. of the reach a show in the access that aftended the initial performances

The people of Fastern Oregon have shown excellent enterprise in sending to the Pennsylvania fair samples of native products. In this way the people of Pennsylvania will learn that Oregon is a land of rich fertility and limitless resources and many desirable persons will be induced to

Republicans of Mushington will start upon their canwass at once Appointments for several speakers including Hon John L Wilson candidate for congress are an nounced to day. The election will take place or the first day of October. The can wass therefore has but three weeks time

· LET THE LAW BE EMPORCED.

Those Wie Entree Sailors Away Will Be Dealt With Rigorously

Contain Thomas Stevenson, of the ship Lord Canning is the list captain to seek the protection of the list massed by the last legislature for the prevention of and pun ishment for entiting seamen to desert or for harboring deserting seamen. Seven of Captain Stevenson's solors were entitled away from his ship open his arrival here. He has an imployed afte counsed and will make a determined that to so are the conviction of the off-inders. He proposes to find out whether the masters of vessels have any rights in this port which these in d pit rates are bound to respect. In this he should hive the sympathy and support of the entire community and support of the entire community and support of the entire community bruded to prey upon our commerce and a determined effort should be made to secure the arrest and conviction of everyone engaged in this business. Let them know that they cannot, commit these high brided outrakes with impunity in longer.

BEHER SCOTT ACADEMY. -- The Christmas Desnor Scarr Academy. The Christmas kert will begin to morrow morning. Already guite a number of scholars have gready guite a number of scholars have gread. The inachers also are back at their moderner and in a pleasant vacation. The ready middings are all in order and many important changed and improvements have been made during the summer. The new commentation of the summer that the summer is the house and in the summer is the history of the school in the summer is the history of the school of the s

con long to the history of the school of history of the school of the sc

BUK FROM NORSELAND. -Mr. E. Lewiston, sho has intelly returned from a visit to Nor-way, 5073 he met many Americans there who has been been the many. Americans there wat, says he met many. Americans there wat, says he is a fine country to travel fright in the summer and there are good he had been as the process are very reasonable for the summer cheaper than to Noissay for a base twing and apparently controlled and happy, not knowing of any better wat of getting along. He brought over with the a coung fellow who worked all last year for \$12 and a suit of clothes, and who is now working for \$20 per month, and thinks he has streeks bonaiss.

B GREAT STECTES .-- It is evident that the A GREAT STOCESS.—It is evident that the new illustrated yeekly will be a great success. The large announcement that the first shore would be converted into a hand-spire pictorial journal has brought the guiltier a host of unsoloicide subscribers and words of pleasure and encouragement, for a hindreds of people. Such a publication will be an elegant novelty on the Pasific coast, and Portland is forthysise in lot by from which it will enfance to its indusence for good to this region, and emerially this city, can not be estimated, and will far exceed that exerted by the magazine, which has been one of the most goverlal factors of our increasing prosperity.

2. Little Rain Needed.-More lovely would be difficult to imagine. Clear and would be difficult to imagine. Clear and cod, except for a short time in the infermous when it is a triff warm. There has been a fill e snoke and a suspirion of heze in the attrophere which indicates that summer has peaced, but Mount Hood could be seen yetered by the triff of the fill had and then the Shite fair and the exposition, and if a few days rain chin be sandwichted in between dars' rain chn be sandwicted in between the and the weather be fine while they are in negress everybody will be happy.

The Place to Cast Your Fly.—A gentleman who has just returned from that section says the best lishing in this section is to be had on the cristory of Lewis river, and threat along that stream. The stream can be reached by wagon road from La Causa or Vancouver, to Il. if bridge, at Lewisville, and from there there is good fishing up the stream, and the in ther up you go the better it gas, up to a cetain limit. In coming down the river the older day he say lots of trout about a foot log lying in the pools.

Figure Executable in A Raus.—A wonner THE PLACE TO CAST YOUR FLY.-A gentle-

freal Fractured in a Race .- A young coident on the White house road vesterday actident on the White house road yesterday alternoon. He was riding a spirited horse when two men, also mounted, came up to him from behind and a race followed. After actiditation had been gone Foley's horse ratint a biggy occupied by a lady and gettleman, hypecting it, but without injury to the accupants. Foley was thrown to the grand and his base of his skull fractured. It was then to Forthand, and was resling any atmidtight last night.

THE PRES SWIMMING BATHS .- Attention The Face Stimming Barns.—Attention is called to the unsafe—indeed, dangerous character of the approaches to the free bath bothouse. Unless some improvement is made in this direction fant accidents, if not by drawning atomy rate by falls, are labele to occur. As matters are now many pureas relate to allow their boys to avail the most over the chance for a plunge which the boatbows offers. A small sum of mercy will see sifficient to construct a gaugeway which will give safe and easy access to the boat.

Queen Discour or The sale of salt weter fish in this city since the steamer George H. Chance began delivering her car-George H. Chance began delivering her carfoces here lass been something enormous,
and goes to show that our people can and
will cat other fish than salmon and troot,
when they car, get it fresh and nice. The
wath made on the first trip of the Chance
we all disposed of long before she returned
from her second trip, and it is more than
likely that the company will soon have to
beild another vessel.

UNA Tour or Inspection. -- W. M. Thomas or a Your or Isspection,—W. M. Thompset, chief clert: F. E. Storm, bookkeeper, and Thomas Hassard, engineer, of the United States railroad commission at Washington, left last night for the East by way of the Sound. They have been making a tour of impection of the accounts and linid grants of the Central and Union Pacific railroads, which under an act of congress are required to pay the government 25 per cent of their sprangs.

fliose Counterveir Bills. - It has been Finest Countemper: Bills.—It has been beened that the name of the man, arcested thader the name of John Doe, by Deputy United States Marshai Clay Meyers, on a charge of pass ng counterfeit bills, is Isaac Lawrence. A reporter was shown the nine-ticklist taken from Lawrence at the time of harrest. They are very good counterfeits, if some they really are. Consisterable doubt coists as to whether they are "queer" or not. Standing Street, Raits.—Teams were at

STREAM STREAM PARTS.—Terms were at work yesterday stringing steel rails along Second street or the proposed electric motherine, in evidence that the compony are in carnest about pushing forward the work o construction, and it is likely that much some than people imagine they will be able to risk in an electric motor car from G street to Felton park.

JUVENILE SPRINTERS .- About a hundred JUNEAUE SPRINTES.—About a hundred grests at a downtown botel amused themletes yesterday afternoon by subsidizing a ktofboys to run races around the block. Some of the lads developed a rate of speed quite astonishing, and giving promise that they would become sprinters.

Service Missing Ones, Elect.—Senator.

SENATOR MITCHELL GOES EAST.—Senator Mitchell his recovered from his illness, and left saturday night via Tacoma for Pennsylvania, to be at the bedside of his mother, who is reported to be seriously ill. The respiral the news hastened the senator's departure by one month.

Pos Two Days, For to-day (Monday) and Tuesday, read carefully our innouncement in to-day's paper of our great lace circuit sae. For list of prices read the advertisement of E. Mayer & Co. Free Lecercas - Mrs. dreene will lecture at the hall on Second and Mill streets, at 4 o'clock it is afternoon. The subject will be The Spiritual Side of the Kindergorten."

THE BEATS THEM AZL Peach Tree and Profit Which Boquired Only Pour Years to Produce-

In the grounds of Captain Cyrus M. Noyer's handsome residence at the corner of E and Twenty-first streets is a peach tree which is a wonder own in the highly

E and Twenty-first streets is a peach tree in the is a wonder; even in this highly in the first streets is a peach tree in the is a wonder; even in this highly in the control state, and the equal of which it is in the union, or, in that matter, any other country in the cond, his produced.

Four years ago last Fourth of July Miss felly Noyes, Captum Noyes's daughter, after eating seach planted the pit. It grew and flourished, and is now a handsome, which there are no the superior in size k the largest ever seen here, many of them reasturing sen and a half to eleven inches in circumstreamerene. The stem of the two largest ever seen four inches in cheefee in between three and four inches in cheefee in the superior in the superi

Son Son and commate can do n the linitraising line.

The peach is a clingstone, and will be the
original of a very valuable variety, which
will be known as the Nelly Neyes. Car aim
Noyes is very proud of the handsome tree,
and magnificent fruit, and has been string
to have the latter attain its full size and refection in order to exhibit it to his fric
but some had boys in his neighborhood lave
been trying their worst to prevent this
yestelling the peaches, and have succeeds

of the idea of stealing anything for a will
anyone knowing of a tree which least
tain Noyes's tree is invited to come to
the builder. Mr. George W. Brown,
who has had to grade the averthe wite.

The Elder Weller's Advice is Unberded The Matter Fully Explained. A few days since a reporter was han sed letter received by Fostmaster Reby, fr in a widow in West Virginin, who wished her address farnished to some "good, ind

"BEVARE OF VIDDERS!"

Christian men," who were supposed be on the marry, as she had a harkerin: for this coast, and there seemed to be a vac ney in her life which West Virginia could not A note was made of the affair, mere y to

A note was made of the aftair, merely to show what curjous requests are made of a postmaster, and not with any idea of a lyer-tising the widow, or with any it ough, that there were any good, kind Christian men in this highly fowered state who wanted West Virginia widows.

this highly lavared state who wanted West Virginia widows.

The letter, it is needless to say, was thrown into the waste basket, where many a milton of more important communications have found their last resting place. It appears, however, that the postmaster failed to keep a memorandum of the widow's address, and the other evening a rather stout, florid middle-agest gentleman, who leoked as if he might be fish for the first widow who magiet for him, called at Thir Organisms office to obtain the said address. The istunction was explained to him, and te denorted a sadder and wiser man.

Yesterday a letter, inclosing a sample orvelope, was sent from the postofice to Iris Organismster to obtain the widow's address, on the pretence of encouraging it maigration and was signed with a name which looks like

and was signet, with a name which looks like Bungstarter.

In order that there may be no more of this foolishness, for it is not to be supposed that the fools are all heard from, this caplanation is given. The letter and the adverses are not fournits concentions, and the wide wis out and injured. The only consolation The Onegonian has to offer the cisappointed is that there are menty of widows, and good ones in this state, and if the divorce mill keeps up its regular grind there will soon be more than we will know what to do with, and our citizens should encourage home production in widows as well as other things. and was signed with a name which looks like

age home production in whome of the other things. It may be remarked that the advice of the elder Weiler, "beyare of yiddays, Samuel, beyared i yidders," does not apply in it is country and age, and that the statement that St. Peter replied to the man who wideful to win past the pearly gates by slowing that he had been married twice, "This is to place for — fools," is patiably false and malicious.

HAWTHORNE AVENUE MOTOR

The road has been somewhat longer in setting completed than was expected, dwing to the somewhat onerons conditions imposed on the builder. Mr. George W. Rown, who has had to grade the avenue forty feet wate, and make all the cuts and lifts the same width. The track runs from Pitth street to licorge Green's place, and when extended to the river, as it will be shortly, will be three niles long. It is standard gauge and well-built, and runs through the fruit section, lying between the river had Mount Tabor. The motor is a very fine one, and the nar, the only one yet arrived, is the handsomest received here. Owing to the width and straightness of the tracks and the easy grades, the train runs very fast, and without that shaking and seesawing perceptible on a narrow gaugeroud. A short distance cast of Fifth street the road runs very fast, and without that shaking and seesawing perceptible on anarrow gaugeroud. A short distance cast of Fifth street the road swerves to one side of the street on what is called the Joe Pacquet carve, in honor of the owner of the property opposite, who does not believe in motor lines, and would not grant a right of way. With the exception of this curve and one slight hend in the ayenue the track is as straight as an arrow.

in the ayenue the track is as straight as an arrow.

There was a regular Fourth of July crowd at the Fifth streetend of the road all day, and the car was packed inside and out, and the standing room on the motor occupied on every trip, making about 125 persons carried every time. The country along the line is a succession of orchards and berry gardens, among which are scattered many fine residences. The Greene place at the east end of the line, is the old Dr. Prityman blace, where there is a row of fine old hawthorn trees, probably the finest of the kind in the state, now loaded with haws, which are turning red. In front of the house is a chestinut tree of years old, and all around are orchards, the trees in which are loaded with fruit or have hately been stripped of their burdens.

The track is laid on one side of the center of the ayenue, and Mr. Brown says the iron for a scend track is on its way. Note the

The track is laid on one side of the center of the ayenue, and Mr. Brown eays the iron for a second track is on its way. Notwithstanding the crowded condition of the car, every one was in good humor, and enjoyed the ride greatly. All were found in their praise of the line, and the rolling stock which worked without a hitch; all were delighted with the beauty of the country along the line, which will doubtless be settled as quick transit has been secured.

TICKETS FOR THE RACES.

The committee who have the great race meeting at City View park in charge mill call upon the people to-day to supply them with tracts, and their handale exterprise surely entitles them to generous patronage. C. H. WILCOX & CO. 150 PIRET

DRESS FABRICS. Regular importations of woolen dress go standard effedes, as well as many new and charming combinations and a fications. While it can scarcely be said that there are any radically new ors, the re are new blendings, the effect of which is novel and altogether safetory to ladies of artistic taste. The popularity of embroidered materia seems to increase rather than diminish, and the markets are full of the markets are full of the markets.

seems to increase rather than diminish, and the markets are full of the matractive patterns in this universally favorite form of decoration.

Among the leading styles in pattern dresses are hands about four or inches wide. These bands are done in embroidery, in colors or in she silks, which give great variety to the design, without introducing any stilcontracts. On one edge of these bordered dresses are the wide bands, on the other are marrow edgings, suitable for whist and sleeve trimming, plain roots, there is endiess' variety. Cashinere, Henrietta Cloth, sings, Serges, Broadcloths, Amazons and Ladies' Gloth, Many ladies prefer mechasing of these plain materials and trimming, with either Performed pand Embroidery Bands, which will give the effect of bordered general at a jouch less tout than one of the embroidered pattern dresses. Y will see bold displayed at our fall opening and can examine into their respetite merits at your leisure. tive merits at your leisure.

Velyets are to be among the leading fabrics of this season. Whether

black or colors, it seems to matter but little; the decree has gone forth mil-vor of ve vet, and importers are filling their cases with it in prospect. old-time velvet basque and bodice will be revived, and blouse waists will indulged in by young indies of stender figure.

Princesse dresses of velvet will be among the regular orders, and infor-

Princesse dresses of velvet will be among the regular orders, and informal reception costumes will be arranged after princesse models.

Pitch will follow velvet in popular favor, both for wraps and full cotumes. Checked, striped and brocaded velvets and plushes are going to be good demand and more freely used than in the last two seasons. As to wis is "correct style" we would quote the following from "Our Fashion Johnna" "Ladies who would acquire a correct style and cultivate good tasted dress should, first of all, study the appropriateness of the material to the puppess for which it is required, and whether it be in the item of cost, qualify color or style of making, the general question of adaptability should not follow the loss sight of."

Good taste, like good manners, may be cultivated, and to do this it is not

moment to lost sight of."

Good faste, like good manners, may be cultivated, and to do this it is no essary to choose the best models from artists of acknowledged merit, and study them carefully, as well as to note the most approved combination colors and material, and their effect upon others with which they may contain the colors are colors.

We would remind our friends, as we close this article, that there is go to be a great revival in silks this season, not only in black, but colored silfaille Française will take first place of all silk fabrics, closely followed by Armure and Merveilleux.

Black Dress Goods will hold their own as popular favorites with a largerition of the fushionable world. We shall show them in quite as great a lety of styles and weave as in colored material.

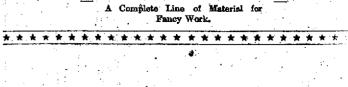

Fashion: Notes

Our second article under this caption will appear this week and will be devoted to

Millinery Goods and Trimmings.

THE N PARTIS

The content of the co

mountains several days longer than was expected and when their hunting dog left them and came back to town some of their friends were anxious concerning their safety. Yonday evening the hunters returned home on borrowed horso, looking sad and sore, hiving met with several unlucks mish is during their sojourn in the mountains. While out looking after their hor es one norming both their saddles and guns which they had left in camp were completely destroyed by a fire which sorting up from the coals of the camp fire and hid caught in an old rotten log against which the saddles and guns were stacked. To worse matters the horses two of which had long ropes on strayed out in the mountains and have not been heard of since Which in reality would be creditable to a town twice the size. It is a large hand some square building occupying a whole block in a very central position with plenty of room for the pupils to romp in dring recess time and that is in the astronyment of the pupils to romp in dring recess time and that is in the astronyment of the pupils of pupils and that is in the astronyment of the pupils of pupils are and that is in the activity of room for the sealers and a complete teachers under the leadership of Professor I B Horner. A number of parent apoke to use of the satisfactory prograss of their children which proves the care and ability of the teachers. One of the inext pleasant features of a new and only half populated country like Orecon is he really into school house, one finds at every only the can be no fair for republicant government in America, while her people in for an and hamfel are so carnest "iberal and and one in the education of their children. In my life time I have troyed half over the world but now here else did I ever find thill uren so invious to attend school or so in distinctive will be at school as on this coust If any doubt this let them examine the pupils in our country schools, let then in an another reaged bar legged boy or striserroly by genough to spin a top or dress a doil up to the blackbord and echow shoon you musigebra or e bics that will get knock if the swift and about a baddle never forget the laughter of the children. It is from our public chool system that the personal independence and undividualism of the American people chiefs, come in after life. While it lasts there can be no fear for the future.

Which in reality would be credi able to a town twice the vize It is a large hind some square building occupying a whole

ho'm practical men from Scotland who have already spent \$3.000 of their own capital to make the enter are successful. The mill is capable of working 100 pounds of clear wood at v which, for such a mill, is considered a cood cav's work in Scotland The products at present are confined to blankets, tweeds and bosiery papers. As the proprietors are thopoughly educated in all branches of the business and do their own work, there is every cleaned for success. Such therebuty on

are thoroughly educated in all branches of
the business and do their own work, there is
every chance for success. Such liberality on
har Rode's part and cheeprises in the pro
prietors richly-deserve success.

The fron foundry, established in 1880, is
not running now owing to the proprietor
Dr. Bonnell, a gentleman with marvelous
inchanneal shi tites not being able to neg
lect his profess on and attend to the busi
ness in letail. All the iron fronts of the
local stores were designed by Dr. Bonnell
and cas at the local foundry. The cupola,
has act pactly of inciting three ton, and
can be easily increased. From the demand
for farming implements the abundance of
good oak wood which can be got in this
neighby thood & cents a foot cheaper than
Easterr oak and good from one at Oswego
this foundry is worth the attention of a good
practical industrious from man. There is
certainly business enough in the district to
make it pay well.

MABBLE MILL.

recently erected about ten miles east of the town by the Roseburg Variety Marble Compa iv Judge Withs W G Woodward and C V Patterson being the incorporator-I have long asserted that the intrible business of Oregon when once thoroughly opened will some day in the near future be pire of the most prolitable in America I gave my reasons in full for this conviction in The Oregonian of the 20th of June lust Putting Southern and Enstern Gregon together she produces ten different various of the very purest marble from jet black to pure white which is really more than an one country in the world was ever known to do before

one country in the work was ever known to do befo e

At d fiferent times, of lote I had been shown specimens of marble from the South of very pure character and high points but it was a revelation to me to find it existing for this y to less or more north and south of hoseburg in such marvelous quantities us it does. The existence of the rock had been known for many veers but it was upposed to be imassione, and was indeed used generally to make time. Being pure curbonate of hime free from all possible deleter our admixtures it necessarily males the very best building hime, being almost equal to cement. The bricklipters don the its owell as mortar made from energiate.

THROUGH SOUTHERN OREGON

So they cannot set as many brock in a wee s work and Capacity of This Section.

Doug'as County Continued—Character and Capacity of This Section.

Line Prosperous Appearance—Eminess Intervate, K nes, Maxifactures.

In my first article on Douglas county it was necessary beginning as I did at Computer and some the county may suffice on Douglas county it was necessary beginning as I did at Compute the prevails largely throughout the county may suffice be at largely many and the following avery material Len of its wealth As soon as it washnown go neriff I was at Constock to examine the egal deposits I received a ret counting a very material Len of its wealth As soon as it washnown go neriff I was at Constock to examine the egal deposits I received a ret counting to the examine the egal deposits I received a ret county investion from prominent citizens at inferent points to vision their section. I necessary in the most county in the received a received and the Plant ale published at Ro eburg, issued the following complines larve once of my doing so which I now reproduce simply to show I speak by the authority ind under the endorscuint of the people at large and not to voice the op non of rry pirit lar decises or advisate the possible received and the Plant are processed for any problematic or expense of the properties of any problematic or expense of the properties of any problematic or expense of the received and the properties of any problematic or expense of the received and the properties of the people at large and not to voice the opinion of rry pirit lar decises or advisate the received and the received an

The contribution of the co

hi me because it can only come from bad man gement. While speaking of Roseburg so fig as toth the preset and the future are concerned I should now mention the fine farms and archards railroad projects, and the magnin cent country surrounding the town for so many unles in every direction the products of which are so invosing. These bowever belong rather to the state than the town of I prefer to leave thom until I have space to speak fully of the grand of in cteristic of the country but themselves. Sail there is one of two more things showing their gift spirit of the cutz he connected with the town which can not well be omitted. The most important of these is the

PUBLIC SCHOOL HOUSE, Which, in reality would be creditable of a town twice the size. It is a large hind some square building occupying a whole block in a very central position with plenty of room for the pupils to romp 11 during recess time, and that is jut as it but, to be The building cost\$1,000 without appointion is and intriture. The everage roll of pupils reaches \$50, with a corps of seven competent teachers under the leadership of Professor I B Horner. A number of pupils reaches \$50, with a corps of seven competent teachers under the leadership of Professor I B Horner. A number of pupils reaches \$50, with a corps of seven contests poke to me of the satisfactory progress of their children which proves the care and ability of the teachers. One of the most pleasant features of a new and only laif populated country like Ore on is the really hine school houses one finds at easy repirt. There can be no fear for republican gov rundiffer an header to one finds at easy point. There can be no fear for republican gov rundiffer model are so carnest, liberal and set from such the education of these cholders. In my life time I have traveted half over the world but nowhere e see did I ever find hillier as an action to action school are in distributions while at school as on this coast I may doubt this let them examine the 1 up pils in our country schools, let them let a nittle ranged bare legged boy or gr. I scarcely by genough to spin a top or dress a cit up to the blackbourd and see the woon, y run algebra or other. They will ge kno ked out as badly as Bajmeey. I once got carght this way and shalf never forget the laughter of the children. It is from our pub to chool system that the personal independence and individualism of the American people chiefs, come in after life. While it lasts there can be no fear for the future. Which, in reality would be creditable o a town twice the size. It is a large hand

THE COURTHOUSE Is also a large, square building, occupying a block and conveniently arranged. In ask block and conveniently arranged. In ask ing for some statistics which I shall use hereafter I found the public officers very police and obliging in giving the information required. As this is some times the reverse though not often with the American official, I log to acknowledge it specially. In I respectively in I respectively are overwhelmingly represented: For my own part I would rather see more producers, even if we go down as lar as he NEHALFM PIONEERS.

Charles I co Charles Woodall and William Allen started out to the mountains on a bunding trip. They femaned out in the mountains several days longer than was expected and when their bunting dog left it em and come back to town some of their friends were anxious concerning their suffer. Monday evening the hunters returne I home on borrowed borse, looking sad and sore hying incl. with several unitarky mishuss during their sojourn in the mountains. While out looking after their horses one morning both their baddes and plus which they had left in camp were completely destroyed by a fire which woring up from the coals of the camp fire and I de aught in an old rotten log against which the saddles and guns were stacked. Fo worse matters the borses two of which had long ropes on strayed out in the mountains and have 1 of been heard of since.

REPORTED DROWNING

Word reached I a Grande Garette

Word reached I a Grande a couple of disago that Mrs. J. K. McGregor had drowned herself and two children in the Celumbia river near I a Cama. The news came by a man who had just been there in I wis joid to Charles. Wright although Mr. V rights informant was to be equanted with the cities and ormant was to be equanted with the cities and orman the set of the haw the McGregor faintly ind believed the report to be true. Me Gregor is a pinter and his lived in I a Grande for three or four years. He left a few month ago for La Camas and was foilowed by his firstly a short time since. Various theories have been advanced as to the cause of the ait the chernlopining ing that it was caused by family for life induced by intermperance on the part of the bushand and a predisposition toward in anits. The elder of the two children reported. I a Grande Gazette e'der of the two children reported o have been drowned was a little girl about 1. 3 kars o d

THE PARM AND THE COLLECE The Cicso Rela on That Should Ex at Between the Inversional and the Practical

CORLALI'S Sept 7 COREALT'S Sept 7
In this article we will speak briefly of the relation that should exist between the farm and the college
In the case room the student learns the

theory on the farm he gets the practice for an agricultural college the, tarm its helds an I build ngs its steek and tools and its cultivition and daily operations through out the farming year is a necessary in Lindoln t action just as the work bench the machine shop and the forge are an eller than hou a for the hor cultured but a comprehen we collect on a pecimen impetiells, in halls and in a products with a "awings and nodel" illustrations in the charles of such things as counct be kent on hand are found to be you able at discould note in the hands of fait full ad agon pet if the tierers in showing what has be not and can be done by seence in assisting up. and can be done by science. In seed the unitarity greaters in relieving the firmer of his bitterest enemie,—vermin and cultiplests mainst tell in which how to exhaust his worn out find and to stop the rivages of time upon his soil. Thus the firm is minused or mismanaged as may be sufficiently and the jurpose of illustration and example to issist and supplement the work of the class room. Whilst it is now a generally accepted fact

whilst it is now a generally accepted het that my college farm which shows a yearly prout in its every department is faling to perform its frue and which shows a yearly prout in its every department is faling to perform its frue and which mission will be to make it as a whole an extrap e of good hus handry and prope estoud undoubtedly be to make it as a whole an extrap e of good hus handry and prope estoud in modelited by the other handry and propessive farming the very fact of having to maintain a variation of its of having to maintain a variation of the loss will be more than complete and of stock will tend to peculiars loss in the loss will be more than complete and the other handry and propessive farming the work of the class room unless it is completely equipped in the class room unless it is completely equipped in all its depirtments, liberally maintained and conducted with jearthy in the time committee of the state of the unsuffered in the firm commony in this age of diversion of a property of the whole good in the state that they may be able or apply in active high the property and practical maining and other mount rial pursuit a section of the state that they may be able or upply in active high the property and practical maining and other mount rial pursuit and can be property in the firm of the whole decided by the state of a ply any this knowledge to the condition of aftairs he finds urround ingline farments as a with a mind train to the condition of aftairs he finds urround ingline in the property of the state of a ply any this knowledge to the condition of aftairs he finds urround ingline.

THE FRMALL SUFFRAGE CLAUSE

I ROOKSIFID W F Sept 7 To the Postor Frue Onegonian Il seem those who tayor female suffrage make a mit take in understing the influence of the large majority of women who do not destre the ballot. I remember one winter in my own state—Massachusetts—when owing to the fuyorable make up of the legislature the suif agists feit that a sure and easy ve tory was before them, but before the time for debate on the question came ound peta-tions signed by thousand; of cultivated and intelligent women from all over the stire poured into the statehouse praying for the defent of the bill. The earnest plea on their behalf of Kate Gainett Wells, before the committee and the cloquent speech of Mr. Soylord during the debate in the house were met with a storm of hisses from the suff-a gists present, but the bal was defeated. Lo.

so much from the opposition of the memso much from the opposition of the members as through the intelligent protest of the hitherto's lent majority.

One of the rea ons why so nony women in opposition of the second with so cause the duties that go with it would be disagredable to them They dislike the thought of attending primagrees and salting upon juries. Then again the average woman cires nothing about politics and for that reason she would make an unintelligent voter, and these are already sufficiently numerous. One has only to attend the meetings of the Woman's long reason by no collection of the with a difficult of the collection of the second with a difficult of the collection of the second with a difficult of the second with a second with the second with the

condition, believed to be the result of a kick from a horse a few years ago.

William Campbell, a rancher near Nook sack was recently found dead by the road a de with his neck broken. It is supposed he was thrown from his mule. Dighty teams are now working on the Dighty teams are now working on the Dighty team the July of the grading toward the Concounty region are already completed.

The Whatom city debt is \$302. The amount received from liquor licenses in one year a sufficient to pay this debt, leaving the proceeds derived from taxation and one deconses made. Linked States engineers are examining the apids of the upper Columbia with a view of the blug the covernment to make amprove. c. blug the government to make improve ments of that part of the river and make it more easily navigable

Lore sasily navigable. James Tate, a malive of Texas, sent to the pentenhary at Walla Walla for nine years for horse-stealing, has been pardomed by the governor after serving four years on the condition that he leave the state at once. Fire destroyed eighty tons of sacked grain for H D Chapman, living at the head of the Coppet, about ten miles coutheast of Waitsburg He had a close call to save his bone. How the fire originated is a mys-tery

On Finday George Romine was descending a bill with load of forty sachs of wheat near Etrenpys place, at Colville byrings when the load upped over Mr Romine Sustruck by one of the wheels and had three ribs broken and was considerably brussed. The man was not internally in nired.

three the broken and was considerably brussed. The man was not internally in jured.

The Garfield Enterprise says. It is ru mored that the Northern Pacific is casting a longing eye on Colfax and tributary country and are contemplating extending their service to that city to retain to for the O.B. A. V. invading their territory by the extension of their line into Spokane Falls. In case the O.B. A. N. does not left them use their track from Garfield to Colfax, they will build to that city.

J.B. McKinley, who wishes a street car franchise at Whatcom, says that he and his associates mean business. That they will except a franchise which compless them to commence work in sixty days, continuing the work without interruption until a line of took from the west line of Whatcom, to the east line of Schome is complete to be built within six months. He claims that the sompany will lose \$1000 per mile the first year! The road will be started with horses, to be replaced by electricity as soon as possible.

nike.

The Oakerdale Sun says The third public well is down ten feet, and, like the first well, two oumps are required to keep the water out while the well is being dug deeper. Oakerdale will never suffer for water—Oran is beginning to come in at a lively rate. The majority of the farmers are storing heir wheat. We believe it is the right move. Wheat will hring a good price this fall.—T H Caldwell was thrown from his horse while riding into town, and was badly thaken up His right hip and shoulder were ladly broased.

Henry Etts het his black his side of the control of t

back ont of the way of a carpenter and stepped into the opening left in the floor for the elevited. So fell twenty mre feet allgaing upon solid rock at the lottom. She we pulled up for dead Wm I udge arrived soon afterward and ordered a physic un who said she was not seriously burt.

As Acoidentally Gets Canght in a Balloon's Guopes, and Makes a Pirst-Cines, Although an Involuntary, Ascension

Eddie Hall, aged 12-years, was the hon of the bour n East Portland yesterday.

Last evening he made a balloon ascension nassisted, which, although involuntary o part, was successful in every respects balloon was in the air exactly seven minutes, and landed on the City View purk oad, about two miles from its starting point ing Hell, save a chaled neck, was unin-ity. The creamstances leading to the making the farilling ascension are as

Professor P. H. Redmond, the aeronaut has made leveral agreemings from the id parachute jump at 5 o'clock last eye-At the appointed hour over 3000 peoig. At the appointed bour over 3000 ped-were assembled to witness the ascension I thrilling jump. A stiff breeze was wing from the north, and, on this ad-just, it was impossible to inflate the hol-bug. With a gas balloon no trouble nild have been experienced in the infia-n, but with not air it is different. With I latter class a continuous flame is forced to the neck of the bag, and exion, but with not set: it is asperent. With the latter class a continuous flame is forced not the neck of the bag, and exercise countries has to be exercised to provent the flame igniting the did of the bag. When a breeze is blowing it is now to language the new to language the new posterior. Such was the care yesterday.

At about 6 o'clock the wind died down onewhat, and it was thought that the bull-oon could be inflated with ease. Such was not the case, however. A fire was built in he formace, and the ball-oon would have been easy to get and not the wind again fresheady to get a fart had not the wind again fresheady to get a fart had not the wind again freshead to

whisway.

It 6:15 is clock Professor Redmond med his tights and commenced making parations for his hazardous undertaking, seven minutes to seven o'clock he grabithe bar of the traveze and called to those

Mesor Redmond took in the situation lance. One of the ropes leading to the ze had become wound around the boy's The aeronaut realized that his weight ck. The separant realized that his weight on the trayers would strangle the boy, it necordingly released his hold, at the me time shouting to young Hall: "Don't afraid sonny. Hold on to that ring for a valuates and you won't be hart. Don't ver, but hold fast to that ring."
The boy hat been all this time frantically ugging to release himself from the rooes, it, on hearing the professor's instructions, i as he was bid, and placed both elbows er the rine, holding to the copy with

ver the ring, holding to the guy ropes with

yer the ring housing to the gay ropes was its hands. The sight was one lever to be forgotten. The sight was one lever to be forgotten. Yomen fainted, oblidten oried and strong nen turned their beads away. The balloon seemded very rapidly, and soon goined a sight of about 1050 feet. Everyone expected a see the boy drop to certain death any monont. Mixtues seemed hours. The multi-rade thought that before the balloon landed rooms. Hait would become exhausted and

foung statt woung recome variance.

Professor Redmond endeavored to make mosen his hold.

Professor Redmond endeavored to make inself beard, and partially succeeded. He mid that there was no danger, as the balloon would soon descend, and that its tone young occupant would not be injured. Very few would believe him, however, they thinking that the boy could not possibly keep his hold for such a length of time. An Ornsonnan reporter shared the latter belief, and jumped into a passing buggy that was headed in the direction the balloon was being carried by the wind, which was southeas!

irection the balloon was being carried by se wind, which was southcast.

After a brisk drive of ten minutes over an attremely rough road, the balloon was unid with its late occupant, on the road sading to City View park, about two miles roam where it ascended. Hall was a very vely dead boy. He laughed heartily on sing questioned by the reporter regarding is turifling experience.

chig questioned by the reporter regarding is thrilling reperience. "I want to so nome to mamma and papa" ere about the first word he uttered after outsing term time. "They will be unasy about me, as I was supposed to have tayed home this afternoon. Some of the cays were going to to the halloon ascension, and I could not resist the temperature of one with them. I'm serry I didn't stay tome now." dome one in the large crowd that sooncol-ted asked the boy how he felt while in hid

Mighty funny," se replied, "I thought

at I was a goner for a white, but I am still ve. All never monkey around any more loons, as I have, bad chough of it, here's my sat? — want to go home." He said that when Professor Redmond rew his we gift on the trapped to the strangled to att, but as soon as the aeronaut released shold on the bar the danger was past. As was, the buy's neck was severely chafed the trapped rope.

It was, the beyoneck was severely chafed by the trapezo rope.

As Hall's parents lived some three miles out on the Fowel's walky road, it was thought best to bring him in to the ferry landing, as Captan M. A. Hackett, who managed the scension wished to speak to him. On the way a het was passed around and \$5 37 collected, which was given to Hall who, upon receiving it, remarked that it was the targest amount he ever poisessed. One of Portland's leading photographers pressed has eard into the boy's hand and told him to call and accept a dozen photographs.

On arriving at the ferry. Captain Hacket and several hundred others congratulated Hall on his wonder'ul escape from an awful fate. Captain Hacket added several dollars to the collection made, and sent the boy home to his arents in a coupe.

It is needless to say that the thousands who expected to see a parachute jung excused Professor Redmond for not making it.

"EITHER MURDER OR SUIDIDE."

A Kalama Corener's Jury Beturn This Verdict in a Mysterious Cass.

A correspondent, writing from Kalama under data of September 7, says that the body of a man was found on the river bank on that date, about one mile and a half

on that date, about one mile and a half from Kalante.

The decaused's height is five feet ten inches, hair dark briwn, monstache and eyabrowe sandy. Theire were scars under both jaws. The corpse was attired in a dark checked pair of cassimere trowsers, and silk searl under his low collar. The body had on no coaf or vest. A soft left hat was found with a Northern Pacific check hits band. Over the left eye was a severe bruise which looked, as if it had been preduced by some bituat instrument. The coroner, jury returned a verdict that deceased come to his death by either mixeder or suicide. The body had the uppearance of naving been in the wafer about a week or ten days.

TANKER CREEK SEWER EXTENSION. The Work In Progressing Favorably-Nething but Good Material Being Used.

The extension of the Tanner creek sewer down the empon below the Exposition building is progressing favorably, but will not be completed as soon as was expected owing to the nature of the ground which at owing to the nature of the ground which at the bottom of the excavation is in placeam regular bayon, filled with decaying wood and soft mud. All of this has to be excavated and replaced by concrete. In one place, about 100 feet long, this concrete had if fire and a half feet deep and the concrete rises in a solid wall one such side of the newer to the tpring of the arch.

An increase amount of canant and,

and crushed rock is being used and under the watchful supervision of Deputy Street THE CITY'S BUILDING BOOM.

and crushed rock is being used and under the watchful supervision of Deputy Street Superintendent William Connors and frequent visits from the street committee the job is being done in a most, thorough manner, although from the long tiers of barrels of cement it is evidently costing Contractor Riner very dearly.

The worst, however, is yet to come, as there is a stretch just before the sewer connects at B street with the already completed portion, which is a regular morass, and where there will have to be concrete "all the way down." In addition to the excavation for the sewer deep trench has been dug uit the way to carry off the

to the excavation for the sewer a deep trench has been dup all the way to carry off the water while the wark is in progress.

The trim Chinese vegetable garden, with the carefully laid out beds filed with thrifty vegetables of many kinds, which used to attract the attention of passers up B street, is a thing of the past. The prods hade for hauling brick and cement, the trench and excavation have completely cut up and destroyed the garden, and most of the ramshackie hovels of the Chinamen bave been burned up out of the way, and the last sign of vegetation has been tramped out by the march of progress, which has left in its trail a lunge culvert to improve the bealth of the city.

THE BIG, BIG EXHIBITION. Preparations Are Being Crewded Forward for the Grand Opening on the . 26:h Inst.

ing through the exposition building yesterday, and the general remark was never beopening. The fair, it will be remembered, opens on Thursday, the 26th inst., which gives seventeen days, including Sundays, to

gives seventeen days, including Sundays, to get the exhibits in order, and there is an epident intention on the part of all to have their exhibits ready on the opening day.

The fair is to be started up in due and ancient form. The Honorable Mayor Van B. Belashmutt, and His Excellency Governor Sylvester Pennoyer, will make short speeches, and Hon. George H. Williams will deliver an address. Then Libratit's great band will strike up, and the wheels will go round and the linest fair ever held on this coast, burring none, will be inaugurated in one of the handsontest exposition buildings in the United States.

The board of directors will be in attendance in full dress, and as for ladics—well it is sufficient to say that every milliner and dressmaker and suit house in the city is swamped with business, and that the dresses,

swamped with business, and that the dre-bounets, hats and other feminine ad

ting in exhibits should go on smoothly and without the use of any more profusity than is strictly necessary. He will devote his time to attending to this!

The cow which is to give forty gallons of milk, buttermilk, etc., has arrived at the building, and several dairynen have been making inquiries about her with a view to purchasing her.

The fair will be supplemented by the greatest array of tent shows, dime muletums, and eatch-penny fakes of all kinds ever congregated in our town on this ceast, so that there will be many things to anness and unosest att.

A thick made the rounds of some of the rooms in the Esmond hotel the other day and carried away several mementoes of his visit. He is described as a tall, coarse looking man, of proportionate build, light complexioned, with a blonde moustache. He Fore light clothes, and:a light slouch hat

He first went into room 41, occupied by Miss Josephine Stebbins, of New York, one Miss Josephine Stebbins, of New York, one of the passengers of the wrocked steamer Aneon. He rifled a reticute and pocketed a number of ancient coins, which the young lady prized very highly. He next visited room 128, occupied by Misses Le Moyne and Harding, of Piusburg, and runnaged all their baggage looking for coin, but he found none. Then he eneaked into the room of Charles Price, Senator Mitchell's, son-in-law, and carried off an overcoat.

In consequence of this visitation guards have been stationed in different purts of the house, and no one is allowed to enter who is not a guest or who has not business in the hotel.

BONIFACE GUINEAN SWINDLED. Seattle Young Man Does Him Up for S100

Thomas Guinean, proprietor of the Es-mond hetel, would like to know of the whereabout of a young men who passed a spurious check on him a few days ago. His rame is C. C. Deffenbaugh, and he hailed from Senttle. He had been a patron of the

from Scattle. He field been a patron of the lotel off and on for a year, and the hotel proprietor had cashed a number of checks for him. The last one was for \$100] and was for winn Dexter. Horton & Co. of Scattle. After cashing it hir Guinean torward it for hayment, and it came buch protosted. Deffenbaugh has disappeared. He represented that he was in the real estate business in Scattle. This year's Scattle directory contains his name and connects him with the real estate and insurance firm of Deffenbaugh & Burriaghs at No. 116 Main street. Mr. Guineam says Deffenbaugh spent money lavishly, and none but the best brand of champagne would suit him. The last time he was here he said high wines did not agree with him, and he had reformed.

CORDRAY'S MUNES-THRATER. The "White Slaw" was a great drawing card at the musee-theater last week, drawing packed houses each night and malnee. This week "My Geraldine," one of Battley Campbell's prettiest pieces, will hold the boards. It is safe to predict that this week's houses will be fully as arge as last week's.

THEATER ROYAL. Manager Clinton has secured a number of attractions, and the coming week gives promise of being one of the most popular and profitable seasous in the history of the Theater Royal. The following are some of the people specially engaged to appear. Lida Cardner, Kenyon Sisters, Lizzie Arnold, Coyan Bros, and thirty-five other artists.

PAY YOUR ENTRY MONEY.

As there is an extraordinary amount of detail abor necessary to carry out the great race meeting to be held this week, horse owners whose entries are unpaid are earnestly requested to call at the office of N A. Gunst, secretary, and pay their entries without delay. The same might be said to the few whose nominations are yet unpaid in Wednesday's handcap, and as no horse can start until the entry is paid the association desires that this be promptly compiled with.

To Horse Owners Who Have Entered for Wednesday's Suburban Handlean. The official amount setuent of the submiban handicap weights will be nosted at City View park after the faces on Tuesday evening next.

S. A. GUNST, Secretary.

Work Going Ahead on a Number of Very Large Structures.

Worship - "The Portland " Marquam's Opera House-Various Brick Edificus.

The greater number of large buildings inder construction in the city are rapidly approaching completion, and nearly all of them will be covered in before the rains .The stone church of the First Presbyterian

congregation at Tenth and Addr. 18, about completed as far as the outside goes, and presents a most heautiful appearance. The tower and spire attract general attention and praise. The proportions and effect are very fine, the workmanship excellent and the dark hasal; with white pointing and the sandstone trimmings form a charming effect in colors. There is not a handsomer bit of stonework on the coast in fact, it is what a dude would call a poem in stone, and will be one of the sights of the city, of which all may feel

signs of the city, of which all may feel proud.

The Grace M. E. church, at Taylor and Tenth, is also about completed as far as the ontside goes. No one has yet discovered what the style of the architecture is called. It is a mixture of several styles, with some original ideas thrown in.] The general effect is novel and pleasing, but is somewhat odd for achurch. It looks more like the town Lall of your quaint old Enropean city.

The Jewish synagogucinas been completed and is very handsome, the windows being especially fine. building of these three churches within n few blocks of each other on the same street created quite a flutter among residents in the vicinity, and a number mace

freparations to remove, but its the syngogue does not use a bell, and the Grace church is going to try and dispense with one, the people became calmer. Just what the congregation of the other church intend to do is not known, but ther church intend to gots not known, but it they must jur the tympanums of it e delibors it is to be hoped they will do it in a more musical manner than was their wont at their old place of worship. Perhaps it hay be concluded that so fine a church should have a fine chunc of bells in its handsome tower.

should have a fine chime of betts in its nature some tower.

"The Fortland" is progressing rapidly to completion and appears more beautiful every day. When the painting is finished outside and the windows are in it will be about as handsome appearing a building as rould be desired, and will impress strangers and others favorably.

The Marquam opera house is going up steadily and rapidly. The Alder street front of the building shows symptoms of being ornamental.

of the building shows symptoms of being ornamental.

How. H. W. Corbett's bardsome five story building at Oak and Third is progressing rapidly, the third story being about completed. The large arched windows, taking in the sgeomal and third stories, are something new here and produce a very fine effect, which will be butter appreciated when the building is extended the whole length of the block, and the two-story entrance is completed.

completed.

Mr. Henry Weinhard's handsome three-story block at Oak and Second has the roof on and is the linest building by far in that vicinity. It will be a puttern for others who will shortly erest buildings along that street, now that an electric motor line will soon be

now that an electric motor line will soon be running there.

Messrs. Fliedner & Holman's five-story block at Fourth and Washington is about completed. It is according different from any other ballding in the city, especially in the way of metallic ornamentation, which is heavy, profuse and elaborate, and produces a very fine effect.

Mr. L. Blumauer's building at Fourth and Morrison is practically completed and is a

a very fine effect.

Mr. L. Biumauer's building at Fourth and Morrison is practically completed, and is a great improvement to that neighborhood, it is probable that more fine, substantial buildings will be erected along Morrison street in the near luture.

The four-story brick neademy of the Sisters of the Holy Names, on their block termeen Fourth and Fifth and Market and Mill, is being roofed and will soon be completed. From its elevated position it towers over all surrounding buildings and forms a striking contrast with the low, white, green-shuttered wooden buildings which stood there so long. It is a substantial, and some building and will afford a fine view from its cupola.

The first story of stone of the Thompson-Burrell building at Second and Ash streets is approaching completion. The brick for the other four stories is arriving and they will go up rapidly. The itemediations, walts and timbers are all messive and the building will be a model of strength.

As for houses of all kinds and prices, the number going up is legior, and they are to be seen on every kand. Perlang the finest

animor going up is legior, and they are to be seen on every hand. Perhaps the finest re J. H. Smith's elegiant residence, on the summit of Mount Tabor, and Mr. Robertson's, on his almost equally sightly place on the north of the Barnes road opposite the city nork.

Take the Northern Pacific railroad, the vestibuled sheper and dining-car route for all points East. Office, No. 121 First strex, corner Washington.

27 PER CENT. DIFFERENCE.

THE "ROYAL" THE STRONGEST AND PUREST BAKING POWDER

Attention has been called to publications from the the Price Baking Powder Co., the obvious purpose of which was to rid themselves of the recent exposure of the inferiority or low test of the baking powder manufactured by hat house.

As to whether the Price baking powder is equal to the Royal," the truth is that when the cans were purchased on the open market and examined by Prof. Chandler, of the New York Board of Healt 1, the report revealed the fact that Price's powder contained twenty-seven per cent. less strength than the "Royal."

When compared in money value, this difference would

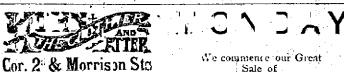

One pound can Royal Baking Powder worth 50 cents. One pound can Price's worth 36 cents.

The Royal Baking Powder Company have been fighting for years past to break up the practice of substituting Alum, Phosphares, Linie, etc., as cheap substitutes for cream tartar, as well as s ort weights and low test in bacing powders, and the "stop thief" ery will not prevent the exposure of all who are engaged in the nefaricus business of palming upon the public cheap or injurious baking powders at the same price at which a pure and wholesome article is sold.

The Royal Baking Powder has the commendation of the most noted chemists in the country for its purity and freedom from every substance of an injurious nature, being manufactured from grape cream tartar, in which no lime, alum or impurity exists.
